About This Game

Description

If you love shoot 'em up and you love 'em hard, with glorious music, with screen filling bullet patterns and huge token cancels, then Don'yoku is just for you!

Don'Yoku is a Shoot 'em up game, in the most traditional sense, a Shmup, fast, technical, hard and rewarding.

The game unfold during a fantasy 1920, where air pirates plague the Zeppelin routes and mercenaries, like our characters, fight for the rich bounties offered by travel companies.

Take the role of the mythical Iron chin, the ruthless Baron or the mysterious Duchess, in a epic battle against their former mercenary companion, now turned pirates.

Wield the incredible powers of the Don'Yoku techniques, that focus ones greed into powerful beams, shields and even gigantic personifications of that controversial sentiment.

Features

- Pixel art hand made well, pixel by pixel.
- A simple yet rewarding scoring system, with huge walls of bullets and huge cancels.
- Fight for the most honourable of game tokens; Gold coins
- The more coins you hoard, the more difficult, and profitable, the game become, up to crazy impossible levels, so keep in check that Don'Yoku (greed).
- Five levels, each with a different style and a unique boss.
- Incredible melodic hard-rock soundtrack, from Antonio S, will blow your socks off.
- Play it your way, bindable controls, pad, keyboard and arcade stick supported, Tate or Yoko it, and, for the unfortunate who do not own a old and battered CRT monitor, the 'back to the 90's' mode, will transform your state of the art lcd ultra flat 90' into a buzzing and flickering arcade leftover; the way it's meant to be played..

Title: Don'Yoku
Genre: Action, Indie
Developer:
Dark-Spot Studio
Publisher:
Dark-Spot Studio
Release Date: 29 Jun, 2015

a09c17d780

Minimum:

OS: Windows 7/8

In my opinion, Subsiege is an overall great game despite being in Early Access and I do not regret buying it. The game promises to be intense and have a fierce competition and I can confirm that. Especially with the oxygen that is running out constantly you are forced to fight against enemys, so it leads to a fast paced game.

Furthermore, I like the environment and the special effects that comes with every skill you activate. The game is really good looking.

It is necessary that you pick a balanced tactic to keep an eye on your oxygen, resources and units. But for beginners it could be difficult because there is no guide ingame that explains common tactics which a beginner can start using. You have to learn through practice and sadly, there a hardly opportunities to find players.

Unfortunately there a no ingame events or a tournament, so it seems that not many players are online. However it is still in Early Access and more will come hopefully!. Bad polishing, not worth the price.. Microcosm is a vr voxel tool, and for early access it seems like a great start. It lacks a few key features, such as undo, but I'd expect the dev is aware and will want to put that in before the full release.. please enter in this game Police ambushes as ID check. Where should I begin, its tale about a young lad and his glorious adventures throughout the realm of fate. The premise and overall experience maybe short but its sweet, compelling and most all real. Unlike most visual novels and the likes, it does not need much time for the reader to feel fully engrossed in the story which the writer is fully aware of and does not create any needless fillers within the writing and takes the reader right to the point, all the while delivery quirk remarks here and there.

But for me personally, I love the interaction going on between the characters themselves, but one thing that I particularly notice was the lack of words our character has instead, the author did something remarkable instead, our every actions and even seemingly written words were in fact stated in third person, thus each words we might believe we said is nothing more than a figment of our own imagination. A wonderful neat little twist, I was not aware of until the very end.

As for the romance, we have about three characters to choose from, each with there own backstory though sadly, due to how short the story was, the partners in question lack the necessary backstory however, this weakness was reinforced by how each of there actions had a reason to it, most which are not because of silly anime cliché (main character etc..). My favourite among them had to be Patches, perhaps her own attitude and characteristics matches my girlfriend in real life. That aside, these partners felt real and someone I can relate to in real life.

Overall the experience maybe short and sweet but it leaves you wanting more, especially Patches more.

Seriously, this is bad. game would be a lot better with online multiplayer

still great

great performance on even low end hardware

nice art

. \u0423\u0425\u0410\u0414\u0418 \u0418 \u0418 \u0418 \u0418 \u041e\u0422\u041e\u0428\u0415\u0428\u0415\u041b. UP

Bought it at SGD\$0.35

Hope to sell the Steam Trading Cards

Hope to earn some Steam Achievement

Found a game Harder than Dark Souls

Down

Given up on the Game at 10min game play.

Earned my 1st card now

Nope~

. Twins of the Pasture is a simple RPG game, where you\u00b4ll control the sisters Aluka and Kurore that due her parents debt (10 millions), the twins need work to pay the debt.

If you want play the original 18+ version, you can find the patch in discussions.

This review is based in my personal opinion and based in 18+ version

Pros: The artwork is good; nice H content; nice voice casting (18+ scenes included); once you pay the all debt, you can unlock all scenes\cgs

Cons: as i said, this game is very simples (few places available, you can take a tour in all places in few minutes); you cant accelerate time (e.g. a event only occurs in evening or night, you need wait the time pass; unless you hack the speed with CE); the game isnt totally translated (you still can find chinese character in few conversations\scene menu); the inventory mechanic is awful (you cant increase\reduce materials in large amount, need click one per one); you cant pause the game (unless you access inventory, or do some action); you cant load the game (unless you talk to someone and them click load)

The 18+ contain: bestiality, yuri, pregnant, threesome scenes (and more)

The game contain 3 endings:

- You cant pay the debt in 120 days: the twins will stay with debt collector
- Became a professional pros titute
- Pay the debt and be free (unlock all scenes\cgs)

Why i recommend?

I recommend this game because is a nice 18+game in steam. And i recommend to those that want H content in their collection. For me, this game should be called twins of the pleasure.. Game wont even start i tried creating name pressed create nothing happend after waiting 4 mins to connect to server waste of time dont even bother
